

JOURNEY GALAPAGOS

AN EXPERIENCE OF A LIFETIME ON THE FIRST AND ONLY
FORBES TRAVEL GUIDE FOUR-STAR RESORT IN ECUADOR

Celebrity Cruises® invites you to discover a destination so awe-inspiring, it's like leaving the planet completely—the Galapagos Islands. Few places in the world have remained as unspoiled as the Galapagos Islands, and we'll spoil you wildly while you visit them. With an equal emphasis on luxury and sustainability, our stunning Celebrity Flora® is the first all-suites, 100-guest ship designed exclusively for sailing these islands, and now it's the first and only resort at sea in the region to receive a Forbes Travel Guide Four-Star Rating.

All three ships surround you in the creature comforts you love while bringing you closer to the islands' extraordinary creatures. With nearly two decades exploring the region, we know the best places to see and give you the best ways to see them. Spot ancient tortoises and blue-footed boobies in their natural habitat. Hike otherworldly volcanic landscapes. Follow in the footsteps of Darwin and get closer to the natural world than ever before. With our all-inclusive activities, adventure is yours for the taking, and our shore excursions bring every island to life as only we can. One day, you'll find yourself hiking from white sand beaches to black lava flows. The next, you're snorkeling among the sea turtles, marine iguanas, and sea lions.

LUXURY AND SUSTAINABILITY AS THE ULTIMATE WAY TO EXPLORE THE UNSPOILED GALAPAGOS ISLANDS

Celebrity Flora® is the first all-suites, 100-guest ship designed exclusively for sailing the captivating Galapagos Islands, and now it's the first and only resort at sea in the region to receive a Forbes Travel Guide Four-Star Rating. In its creation, we followed in the footsteps of our revolutionary ship, Celebrity Edge®, by designing Celebrity Flora in 3-D. This advanced technology lets us experience every space on board in virtual reality to fine-tune every detail of the design before she's even built. This process allows us to create the most state-of-the-art ship to ever sail the Galapagos Islands. From the luxurious all-suites accommodations that incorporate sustainable, natural materials to the Dynamic Positioning System that enables the ship to stay on station without the use of anchors to help protect the seas, we've created a ship that truly differentiates between visiting, and experiencing, this incredible corner of the world.

On Celebrity Flora, you can enjoy the first and only sunset-to-sunrise experience of its kind in the Galapagos Islands. Admire brilliant constellations during naturalist-guided stargazing. Sleep under the stars in a comfortable cabana. Wake to a golden sunrise and the aromas of a private breakfast before launching your day.* Celebrity Flora also features our innovative outward-facing design that puts the destination at the center of attention, creating a bond between our guests, the ocean, and these stunning islands. By focusing the direction of spaces outward at every opportunity (including suites and even bathrooms), we virtually erase the boundaries between ship and destination to create a sense of immersion in this extraordinary corner of the world.

Unique to Flora is the Infinite Veranda, a key transformational element. This game-changer virtually blurs the boundary between inside and outside living space and takes your entire room to the water's edge with the touch of a button. This brilliant innovation gives you luxurious, open-air access to the sea—and the Islands—whenever you wish. Personal suite attendants cater to guests' every need. With up to 1,288 total square Celebrity Flora's two Penthouse Suites feature separate indoor and outdoor living areas, customizable lighting and shades, and a telescope for stargazing or sea lion-peeking. Guests can also find relaxation in Royal Suites, Ultimate Sky Suites with Infinite Veranda, Premium Sky Suites with Infinite Veranda and Sky Suites with Infinite Veranda.

Celebrity Flora is one of the most energy-efficient ships in its class, with a 15 percent reduction of fuel consumption and equivalently fewer air emissions, thanks to the introduction of an advanced propulsion system, hull configuration and specially designed diesel engines and solar panels that will help supplement electricity. Celebrity reduces the need for plastics onboard by introducing in-room water filtration stations and by converting sea water and air conditioning condensation into pure, fresh water. Any materials that can be recycled, reused or donated will be as part of a strict waste management system. We're extremely proud of the lengths we've gone to in order to protect this amazing part of the world so future generations can experience this unbelievable living time capsule exactly the way you can today.

Celebrity Flora is the evolutionary new wave of vacationing in the Galapagos. Join us for this life changing experience in the mystery and magic of The Galapagos Islands onboard Celebrity Flora.
